Chesapeake Energy Corporation announced today that it intends to commence a private placement offering to eligible purchasers of \$200 million of a new issue of senior notes due 2016. The notes are expected to be eligible for resale under Rule 144A. The private offering, which is subject to market and other conditions, will be made within the United States only to qualified institutional buyers, and outside the United States only to non-U.S. investors.

Chesapeake intends to use the net proceeds of the offering to fund its recently announced tender offer for all of its approximately \$111 million outstanding 8.5% Senior Notes due 2012 and to repay debt under its bank credit facility incurred primarily to finance its recent acquisition of south Texas natural gas properties from Laredo Energy, L.P. and its partners.

The exchange offer, if made, would be a private placement within the United States only to qualified institutional buyers and outside the United States only to non- United States persons.

The notes being offered have not been registered under the Securities Act of 1933 or applicable state securities laws, and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the Securities Act and applicable state laws. This announcement shall not constitute an offer to sell or a solicitation of an offer to buy the notes.
