

**Chesapeake Energy
Corporation Announces
Pricing of Private Offering of
4.125% Cumulative
Convertible Preferred Stock**

PRNewswire-FirstCall
OKLAHOMA CITY

Chesapeake Energy Corporation today announced that it has priced a private offering of \$255 million of a series of 4.125% cumulative convertible preferred stock at its liquidation preference of \$1,000 per share. Chesapeake expects the issuance and delivery of the shares to occur on March 30, 2004. Chesapeake has also granted the initial purchasers a 30-day option to purchase up to \$38.25 million in additional shares of the preferred stock.

Each share of preferred stock will be subject to an annual cumulative cash dividend of \$41.25 payable quarterly when, as and if declared by the company, on the fifteenth day of each March, June, September, and December to holders of record as of the first day of the payment month, commencing on June 15, 2004. The preferred stock will not be redeemable.

Each preferred share will be convertible at the option of the holder into 60.0555 shares of Chesapeake common stock based on an initial conversion price of \$16.65 per common share, subject to customary adjustments. A holder may only convert the preferred stock, however, under the following circumstances:

- (i) during any fiscal quarter after June 30, 2004 and only during such quarter, the closing price of Chesapeake common stock for at least 20 days in a period of 30 consecutive trading days ending on the last trading day of the fiscal quarter exceeds 130% of the applicable conversion price on such trading day (or initially \$21.65 per share);
- (ii) during the five business day period after any five consecutive trading day period in which the trading price per share of the preferred stock for each day of that period was less than 98% of the product of the closing sale price of Chesapeake common stock and the applicable conversion rate on each such day; or
- (iii) upon the occurrence of specified corporate transactions involving mergers, consolidations, sale of substantially all of the assets or change of control.

The preferred shares will be subject to mandatory conversion into Chesapeake common stock after March 15, 2009, at the option of the Company, if the closing price of Chesapeake's common stock exceeds 130% of the conversion price for 20 trading days during any consecutive 30 trading day period.

Chesapeake intends to use the net proceeds of the offering to repay debt under its bank credit facility and to fund approximately \$100 million of pending acquisitions of oil

and gas properties, or in the event the acquisitions are not consummated, excess proceeds will be used for general corporate purposes including possible future acquisitions. The chief executive officer and chief operating officer of Chesapeake intend to purchase at the offering price an aggregate of \$20 million in additional shares of the preferred stock directly from the Company in a concurrent private offering.

The preferred stock being sold by Chesapeake and the underlying common stock issuable on its conversion will not be registered under the Securities Act of 1933, as amended (the "Securities Act"), and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements of the Securities Act and applicable state laws. The preferred stock will be eligible for trading under Rule 144A. Purchasers of the preferred stock are being granted rights to register resales of the preferred stock and underlying common stock under the Securities Act. This announcement shall not constitute an offer to sell or a solicitation of an offer to buy the notes or the preferred stock.

This document contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements include estimates and give our current expectations or forecasts of future events. Although we believe our forward-looking statements are reasonable, they can be affected by inaccurate assumptions or by known or unknown risks and uncertainties.

Chesapeake Energy Corporation is one of the five largest independent natural gas producers in the U.S. Headquartered in Oklahoma City, the company's operations are focused on exploratory and developmental drilling and producing property acquisitions in the Mid-Continent, Permian Basin, South Texas and Texas Gulf Coast regions of the United States.
