

**Chesapeake Energy Receives  
Awards for Industry  
Leadership and Deal of the  
Year at the 2011 Platts Global  
Energy Awards Program in  
New York City**

OKLAHOMA CITY, Dec 02, 2011 (BUSINESS WIRE) -- Chesapeake Energy Corporation (NYSE:CHK) received the *Industry Leadership Award* at the 13<sup>th</sup> Annual Platts Global Energy Awards program last night in New York City and also received the *Deal of the Year Award* for its industry joint ventures in the Eagle Ford Shale and Denver-Julesberg and Powder River basins with a subsidiary of CNOOC Limited (NYSE:CEO).

The Platts Global Energy Awards recognize excellence and innovation by companies and executives throughout the global energy industry. Finalists were chosen for the Global Energy Awards from more than 200 nominations. Chesapeake was also a finalist for the *CEO of the Year*, *Energy Producer of the Year* and *Community Development Program of the Year* awards. Chesapeake is one of only two companies that received multiple awards this year and one of only two companies selected as a finalist in five or more categories. This is the second time in three years that Chesapeake has received the *Industry Leadership Award* from Platts. During the past five years, Chesapeake has earned five Platts Global Energy Awards and has been nominated for nine more, the most recognition of any E&P company in the world.

In the *Industry Leadership Award* category, Platts stated, "Chesapeake Energy Corporation is positioning itself to help lead the transition toward a greater use of natural gas as the fuel for motor vehicles. Such an effort to promote the use of compressed natural gas (CNG) and liquefied natural gas (LNG) to fuel vehicles could help the United States reduce its dependence on gasoline and diesel, and thus high-cost imported oil, and approach energy independence. This could be a game-changer for the U.S. economy, energy policy and foreign policy, a leadership initiative that has earned this year's *Industry Leadership Award*."

In the *Deal of the Year* category, Platts also added, "Chesapeake Energy Corporation reshaped the contours of international energy exploration with two landmark deals with the same partner: CNOOC, the state-owned China National Offshore Oil Corporation. Chesapeake and its CEO Aubrey K. McClendon singlehandedly transformed U.S.-China energy cooperation and helped strengthen overall U.S.-China economic relations. Seldom does a single set of transactions have such a serious commercial, diplomatic and energy-policy impact. For its pioneering efforts to create an international partnership that may have wide-ranging energy and economic implications for years to come, Chesapeake has certainly eclipsed all other competitors in the 2011 award category for *Deal of the Year*."

Aubrey K. McClendon, Chesapeake's Chief Executive Officer, commented, "We are proud of the accomplishments of our more than 12,000 employees and honored to receive the *Industry Leadership Award* and *Deal of the Year Award* for 2011. We are

pleased to have been honored with the *Industry Leadership Award* twice in the past three years. We appreciate Platts' recognition of our achievements and believe these awards reflect very favorably on the company's strategy and the accomplishments of its employees and management team. We look forward to continuing to drive innovation in our industry and creating value for our shareholders for many years to come."

***About Platts: Founded in 1909, Platts is a leading global provider of energy, petrochemicals and metals information and a premier source of benchmark prices for those markets. Platts' [news](#), [pricing](#), analytics, commentary and [conferences](#) help customers make better-informed trading and business decisions and help the markets operate with greater transparency and efficiency.
