

**Chesapeake Energy
Corporation Announces
Pricing of \$300 Million of
4.50% Cumulative Convertible
Preferred Stock**

PRNewswire-FirstCall
OKLAHOMA CITY

Chesapeake Energy Corporation today announced that it has priced a public offering of \$300 million of its 4.50% cumulative convertible preferred stock at its liquidation preference of \$100 per share. Chesapeake expects the issuance and delivery of the shares to occur on September 14, 2005. Chesapeake has also granted the underwriters a 30-day option to purchase up to \$45.0 million in additional shares of the preferred stock solely to cover over-allotments, if any. The offering is being made under the company's existing shelf registration statement.

The annual dividend on each share of preferred stock will be \$4.50 and will be payable quarterly in cash, common stock or a combination thereof, when, as and if declared by the company's board of directors, on the fifteenth day of each March, June, September and December, to holders of record as of the first day of the payment month, commencing on December 15, 2005. The preferred stock will not be redeemable.

Each share of preferred stock will be convertible at any time at the option of the holder into 2.2639 shares of Chesapeake common stock, which is based on an initial conversion price of \$44.17 per common share. The conversion price is subject to customary adjustments in certain circumstances. The preferred shares will be subject to mandatory conversion on or after September 15, 2010 into Chesapeake common stock, at the option of the company, if the closing price of Chesapeake's common stock exceeds 130% of the conversion price for 20 trading days during any consecutive 30 trading day period.

Chesapeake intends to use the net proceeds of the offering, together with the proceeds from a concurrent offering of common stock, to repay debt under its bank credit facility and for general corporate purposes.
